- Inflammation & Immune Mechanisms in Obesity

■ ABOUT NFOD 2026

The growing worldwide problem of obesity and the associated metabolic and health issues is addressed by the Obesity Track at NFOD 2026. In order to investigate evidence-based approaches for prevention, management, and treatment, this track brings together medical professionals, researchers, and nutrition specialists. Topics including hormonal regulation, metabolic health, lifestyle interventions, digital health solutions, and community-based initiatives will all be covered in the sessions. Participants will acquire useful knowledge, creative strategies, and chances to work together to advance obesity research and care globally.

■ REASONS TO ATTEND

About Venue:

Berlin, Germany, a major center for medical innovation and scientific research, will host the NFOD 2026 Obesity Track. The location provides state-of-the-art conference spaces for networking, interactive sessions, and workshops. Berlin is the perfect place for cooperation and knowledge sharing because of its prestigious universities and research institutes. In addition to the conference, the city's museums, gastronomy, and rich culture offer a lively experience.
